

# For mentors and home gurus!

## Teaching Tips

The following pages are for home gurus and mentors, teachers. If you are working during the Covid with children in their homes, teach your students

elder brother or sister to turn the home into a school!

See this guide for more ideas.

All children love stories!  
They love to hear stories.  
They love to tell stories.

The story is the first skill that KG kids learn. If they learn well with you, they will be able to read all subjects!

Your work with them is the most important!

Always remember that when you have fun your children have fun too!

Use every day words with your children. In KG, they are learning to enter into primary school! Like a big girl or a big boy! So give them opportunities to be a leader!

## Teaching tips

- Teaching through storytelling
  - Teach children how to use their voice. And their face.
  - Play games with them where they act different animals. Walking like a deer. Flapping their ears like an elephant. Hopping like a rabbit. And so on ...

- Storytime! is fun for children.
  - Circle time storytelling. See picture >>
  - Reading together. Your child may not be able to read, but it is a good idea to read with them.
  - COOL! reading is fun for children where they can read with one another, on their own!

- Teaching with action songs is fun. And good exercise too for children!
  - Learn the song “here we go round the mango tree,” so you can sing with the children without a problem!
  - Sing with the children.
  - Do actions for each verse.
  - [Here is the link to the song.](#)

- Teaching with games and puzzles
- The game we have is about the right way to wear a mask.
  - Wear a mask around your face and ask children to guess if you are wearing it the right way or the wrong way.
  - See right for the wrong ways to wear the mask.

## Teaching with videos

- Play this video
  - [https://www.youtube.com/watch?v=K\\_C8IEOHMK0](https://www.youtube.com/watch?v=K_C8IEOHMK0)
  - Draw this game on the floor. In the home. In a safe place during Covid.
  - Let children play as they want. Guide them gently if they look as if they don't know what to do next.
- TV. If you don't have a video player, don't worry!
  - Find out your children's favourite television show.
  - And you can ask them to tell their own story with a character there. Or act like a character they like. Or ... think up fun things that children can do even at home with a TV show!

# Tips for KG Gurus | 6

caring for Mother Earth

- Mother Earth! is sad because we don't look after her.
  - Show children how to
    - care for a plant. Not to pluck leaves. To pet a flower.
    - Care for animals. A little puppy god or a cat. Tell them that it hurts for baby dogs like it hurts for human babies.
    - If you want, you can have a special reading session with this story about how baby animals.
